

Prochaska & Associates

Planning Architecture Engineering Interior Design Facilities Management

Summary of Services

Pre-Design:

Site Use Analysis
Space Program Testing
Facility Evaluation
Feasibility Studies

Planning:

Master Planning
Functional and Space Programming
Site Development
Life Cycle Cost Analyses
Technical Engineering Analyses
Operational Utilization Assessments
Health Systems Planning

Architecture:

Architectural Design and Development
Construction Administration
Computer-Aided Design
Landscape Architecture
Specifications
Scheduling
Cost Estimating
Historical Preservation
Models and Renderings

Engineering:

Mechanical Engineering
Electrical Engineering
Structural Engineering
Civil Engineering
Fire Protection
Communications
Energy Conservation Projects
Central Plant Upgrades
Wind Turbine Generators

Interiors:

Interior Master Planning
Space Planning
Furniture Design
Furniture Selection
Equipment Planning and Coordination
Graphic Design
Signage Systems and Wayfinding

Security:

Security Hardware
Security Glazing
Low-Voltage Electronic Security Systems
Data and Telecommunication Systems
Infrared Systems
Fiber-Optics
Security Control Console
CCTV
Motion Detection

Specialized Services:

Energy Master Planning
ADA Assessment Surveys and Reports
Bond Issues
Certificate of Need Assistance
Codes Administration
Construction Management Services
LEED Certification
Design Build
Sustainable Design Services
CADD Documentation
Building Condition Surveys
Site Selection Studies
Land Use Plans
Seismic Evaluations
Energy Use Studies
Permits and Zoning Assistance
Real Estate Development Services
Technical Personnel Leasing
Expert Witness Services
Structural Inspections
