Company Biography

Devine Design Landscape & Lawn Maintenance, Inc. was founded on 5/22/2007 by Sarasota native, David Daniels. David has a degree from Penn State University and has completed numerous educational courses relative to Florida landscapes.

Our team is comprised of individuals specializing in the landscape and service industries. Every individual is an asset bringing their own expertise from the horticulturist to the technicians. We have been fortunate enough to retain some staff members for over a decade.

Methodically combining each person's skillset has been an integral part of our structural development. With licensed pest control, fertilizations experts, a horticulturist, irrigation guru, past property mgt. specialist and career long landscape engineers we have been able to achieve our goals as one.

It is our mission to provide quality products, expand while maintaining reliability and continue to offer prompt customer service.

Devine Design has been serving the community for years and has built many professional working relationships within the area that include singular Owners to some of the largest property management firms. We specialize in commercial properties such as home owners' associations, condominium associations, apartments and multi-unit owner's needs.

Our services include landscape maintenance, designing of custom digital visual art, remodels/hardscapes, irrigation, tree removal and installation. In addition, we offer emergency services, floral rotations, one-time services and annual trimmings. As always, we are happy to attend meetings, hold Q&A sessions, perform presentations, provide free estimates and credentials.

Devine Design is proud to say that we treat every property as if it were our own no matter the size or type. Each site is given our full attention receiving its own customized plan to ensure that we do our best to improve and maintain every one when given the opportunity.
