

Audio Visual Success Stories

Benicia Unified School District has revamped their Council Chambers with the latest audiovisual systems from Pacific Coast AV. The existing, antiquated systems of the Council Chambers were difficult to control and the session recordings revealed a poor method of audiovisual capturing. Pacific Coast AV upgraded the systems with high-resolution video recordings and integrated touch panel control - customized to the end-user's needs. Reference: *Michael Sharif, BUSD Systems Analyst (707) 771-8410*

The **Capitol Area Development Authority (CADA)** of Sacramento, CA retained Pacific Coast AV to update their Boardroom / Council Chambers. The project included multiple display monitors, microphones with digital audio signal processing, integration with owner-furnished equipment with 3rd party-provided services, and touch panel(s) with multiple combinations of matrix / directional video switching for combinable-room control. Reference: *Rachel Mercurio, Board Secretary (916) 322-2114 x108.*

The **Vacaville Unified School District** is in process of upgrading their Council Chambers with digital technologies. Pacific Coast AV has provided professional system design services with sales consultation, onsite product demonstration, formal scope-of-work creation, project planning, and technical collaboration with the school's IT and facilities departments. Pacific Coast AV is currently under contract for the system integration of this project. Reference: *Jim Wasielewski, VUSD Technology Coordinator (707) 453-6194*

Sutter Health has upgraded their "Sutter Health University" Training Rooms in Sacramento, CA. Pacific Coast AV provided system design and integration services for these multiple training rooms. The rooms utilize video teleconferencing and audio conferencing in a highly technical, combinable-room application. Pacific Coast AV was flexible with room scheduling to allow the frequently used rooms as much time as possible for the client's training purposes. Reference: *Raymond (Jim) Lopez, Media Services (916) 855-8768*
