General Information

Lucas Metropolitan Housing Authority is a metropolitan housing authority organized and existing under the Ohio Revised Code Section 3735.27, et seq., and is governed by the U.S. Housing Act of 1937, as amended, and subject to regulation under Title 24 of the Code of Federal Regulation.

LMH is governed by a five (5) person Board of Commissioners, appointed pursuant to the above - cited statute. The President and Chief Executive Officer controls the daily operations.

The mission of LMH is “to create and maintain sustainable, affordable housing opportunities, provide pathways to a better quality of life and empower vibrant communities”.

The vision of LMH is “To be a premier partner in creating communities of choice in the Greater Toledo area”.

LMH owns and manages approximately 2,760 public housing units and administers 4,391 federal Housing Choice rental assistance vouchers. The Housing Choice Voucher Program has achieved high performer status.

LMH is committed to a goal of thirty-five percent of all contract funds being awarded to Minority Business Enterprises (MBE) and/or Woman-Owned Business Enterprises (WBE). The firms submitting proposals are encouraged to include MBE / WBE participation to the maximum extent possible.

The Evaluation Process or Award without Discussion(s) will be used to select the contract award, beginning with the highest ranked firm. LMH reserves the right to select a contract(s) with the individual(s), firm(s), or organization(s) who provides the greatest benefit to LMH, not necessarily the lowest price.

Scope of Work

Creating quality and affordable housing opportunities and building collaborative partnerships is Lucas Metropolitan Housing Authority’s (LMH) mission. LMH will achieve this mission while stimulating economic growth, empowering individuals, and developing the neighborhoods of tomorrow for the people of today. In order to realize this task LMH is redefining its strategy to reflect the existing needs of current and future households by partnering with the community organizations to provide an array of housing opportunities to a greater portion of Toledo and Lucas County.

LMH is seeking proposals from qualified applicants (owners/developers, management agent, and/or project sponsors) to receive Project Based Vouchers (PBV). Projects may request up to a fifteen (15) year Housing Assistance Payment (HAP) PBV Contract with LMH. LMH has reserved 250 PBVs for this RFP process.

This RFP is a “rolling” RFP process. A “rolling” RFP process is a first come, first served application process, meaning proposals will be accepted for consideration on a continuous basis until it is determined funding or vouchers are no longer available for award or this methodology no longer serves a purpose for LMH.

LMH has identified Supportive Housing as one of the existing needs of the community. **Supportive housing**, by definition, is a combination of housing and services intended as a cost-effective way to help people live more stable and productive lives.

LMH invites property owners/developers to submit a written proposal demonstrating their project eligibility, qualifications, and interest in securing Project-Based Vouchers (PBV) which will serve various populations in the jurisdiction of Lucas County, Ohio. PBV assistance provides rental subsidies paid on behalf of eligible families who live in units that are contracted under the program. The solicitation for vouchers under this Request for Proposals (RFP) is for applicants that will be applying in 2022 for new construction, existing, and/or rehabilitated housing. Rehabilitation projects must demonstrate a minimum average per unit renovation cost of \$5,000 to be considered for an award. Projects may request up to a fifteen (15) year Housing Assistance Payments (HAP) PBV Contract with LMH.

The PBV Program regulations are set forth in the Code of Federal Regulations, Title 24, Part 983. A copy of these regulations is available via the following website at www.ecfr.gov. Additionally, please see [Appendix A](#) for detailed references to HUD requirements and LMH’s policies per the Housing Choice Voucher Administrative Plan.

LMH is interested in providing PBVs to provide housing for low-income families that are located in neighborhoods providing increased choices and opportunities in employment, education, transportation, and healthcare. LMH is interested in providing PBVs in neighborhoods with sufficient quality of affordable housing in not readily available. LMH is interested in providing PBVs to neighborhoods where significant revitalization is being made in a poverty-impacted area that is undergoing substantial rehabilitation as part of a comprehensive neighborhood revitalization strategy.

Descriptions of households assisted under this RFP are as follows:

Supportive Housing - A combination of housing and wrap-around services, provided directly by the proposer or through acquired services providers, aimed at providing supportive services for individuals or families without housing alternatives due to substance abuse, mental illness, physical limitations prohibiting functional independence, special needs or seniors, homelessness non-veterans, and homeless veterans, aging out of foster care youth, students who are at risk of being homeless, and student housing (school age and/or college). Supportive housing can be coupled with social services such as, but not limited to (at LMH’s discretion), as job training, life skills training, alcohol and drug abuse programs, community supportive services

(e.g., childcare, educational programs, etc.), and case management to the populations in need of assistance.

PBV assistance cannot be provided for units on the grounds of a penal, reformatory, medical, mental, or similar public or private institution; shared housing; manufactured home space rental, or the homeownership option. For a complete listing of all ineligible units, refer to the Code of Federal Regulations (CFR), §24, Part 983.53 and 983.54.

Existing, Rehabilitation, or New Construction Properties

- Existing housing is defined as housing immediately ready for occupancy and in compliance, at the time the response to the RFP is submitted, per Housing Quality Standards (HQS). Please see Code of Federal Regulations, §24, Part 982.401 for HQS standards.
- Rehabilitated housing is defined as existing housing having been designated for renovation and modification at the time the response to the RFP is submitted. Rehabilitation cannot commence prior to execution of the *Agreement to Enter into Housing Assistance Payment (HAP) Contract*. Rehabilitation begins with the physical commencement of rehabilitation activity.
- New construction housing is defined as site preparation for, construction of, or completion of entirely new structures and/or significant extensions to existing structures whether or not the site was previously occupied. New construction cannot commence prior to execution of the *Agreement to enter into Housing Assistance Payment (HAP) Contract*. Construction begins when excavation or site preparation occurs (including clearing of the land).
- Proposals selected with units classified as new or rehabilitated must be completed within eighteen (18) months of the execution of the HAP contract.
- The project/site may be subject to an environmental review under 24 CFR Part 50 and 58, as referenced in 24 CR 983.53. The owner must cooperate fully with the environmental review if such review is deemed necessary by the responsible entity. The owner shall supply LMH, the responsible entity, and/or HUD (if applicable) all necessary and relevant information to complete the review. Further, the owner is required to carry out any mitigating measures required by the responsible entity or HUD (if applicable) as a result of the environmental review. LMH will not enter into a HAP contract unless HUD approves a release of funds (when submission is required).
- The project/site may be subject to the subsidy layering requirement detailed in 24 CFR 983.55 for housing selected for rehabilitation or new construction.

The site must:

1. Be adequate in size, exposure, and contour to accommodate the number of type of units proposed, and adequate utilities and streets must be available to service the site. (The existence of a private disposal system and private sanitary water supply for the site, approved in accordance with law, may be considered adequate utilities.)
2. Promote greater choice of housing opportunities and avoid undue concentration of assisted persons in areas containing a high proportion of low-income persons.
3. Be accessible to social, recreational, educational, commercial, and health facilities and services and other municipal facilities and services that are at least equivalent to those typically found in neighborhoods consisting largely of unassisted, standard housing of similar market rents.
4. Be located so that travel time and cost via public transportation or private automobile from the neighborhood resources are not excessive.

By federal regulations, PBV are available for up to 25% of the total units in the development; however, those units occupied by elderly or disabled families or families who have signed supportive services agreements will not be counted toward the 25%-unit cap.

PBVs may not be attached to any unit with a family that is either ineligible for the program or chooses not to participate in the program. Households interested in renting a project-based unit are referred to LMH's waiting list and qualification processing. LMH will then refer the eligible applicant to the owner for screening. LMH will maintain the list of eligible applicants for the project-based units; however, the owner is responsible for screening qualified applicants using his or her own admission standards, bearing in mind that the eligible applicants may have poor credit history or no credit history. These admission standards must meet Fair Housing requirements and the owner must comply with all Fair Housing and Equal Opportunity requirements.

LMH reserves the right to fund some, all, or none of the respondents.

LMH may award multiple contracts/agreements resulting from this solicitation to the owners whose proposals are most consistent with this RFP.

All projects will be required to complete a subsidy layering review process.
