All insurance policies shall contain a provision that coverages and limits afforded thereunder shall not be canceled without thirty (30) days prior written notice to the MPHA. The MPHA shall have the right to examine any policy or endorsements required under this contract.

Re: Expanding Operations – Partners: Contractors, Vendors, and Consultants for The Minneapolis Public Housing Authority in and for the City of Minneapolis (MPHA)

MPHA's #1 priority is the safety and well-being of our employees, residents, participants and partners as we determine the expanding operations protocols necessary to accomplish ongoing activities. During this unprecedented time, we are requiring the following actions of our partners: contractors, vendors, and consultants etc. to support the safety of all. As you are aware, MPHA serves some of the City's most vulnerable populations. We are utilizing the CDC, OSHA, State of Minnesota, American Industrial Hygiene Association and other regulatory organizations' guidance to establish the requirements. Due to the uncertainty of the situation, MPHA may update these requirements based on the needs of the organization at any time. Partner deviations from the protocols established in this document must be approved in writing by MPHA prior to making a change. MPHA shall retain the right to request and receive a change in personnel assigned to the work, if partner's employee fails to comply with this document.

If you have a question regarding an area that is not covered in this document, please utilize the appropriate governmental or regulatory guidance.

Responsibilities of our partners:

- Enforce requirements with all sub-contractors.
- Ensure compliance by all of your employees.
- Communicate requirements and expectations to all employees including signing an acknowledgement of understanding. (Training if necessary)
- Provide required PPE.
- Provide appropriate PPE training with a signed acknowledgement of understanding.
- Provide appropriate action for non-compliance by their employee
- Support any employee that notifies them of safety concerns including potential exposure of COVID-19 without fear of retribution or termination.

Requirements

Screening Prior to Jobsite Admittance

All personnel that enters a jobsite must complete a health questionnaire (see attached sample from the State of Minnesota) and have their temperature taken on a daily basis. Please stay abreast of

symptoms that the CDC states are indicative of COVID-19 and screen for those symptoms. If the individual has any of the symptoms captured in the questionnaire and/or a fever, they will not be permitted onto the worksite. Potentially ill individuals must be separated from others that are in the area. You will need to maintain records that your employees complied with the daily pre-site health screening protocol prior to arrival at a MPHA facility. If requested, you will need to provide MPHA documentation that the protocol was followed and who was responsible to ensure it was.

Handling of positive COVID-19 case

If one of your employees, who has been at one of MPHA's facilities, tests positive for COVID-19 or is presumed positive for COVID-19, you must immediately notify your Contract Administrator at MPHA. You will need to identify potential MPHA staff and tenants that your employee may have contacted. The date and time that your employee was at our facility will also be needed. MPHA will use its notification protocol to inform employees, residents/participants and other partners of the potential exposure. MPHA in compliance with the ADA will not disclose the name or identity of the ill individual.

Return to work after identification and isolation of sick persons

An individual who has tested positive or is presumed positive for COVID-19 shall not return to the MPHA job site until after 10 days have passed since symptoms first appeared AND at least 24 hours with no fever without fever-reducing medication AND other symptoms of COVID-19 are improving, or as directed by a healthcare provider. This is the CDC's guidance as of the date of this letter. It is your responsibility to ensure you're following the most recent guidance issued by the CDC for returning to work after COVID-19.

An individual who comes in close contact with someone who has tested positive or is presumed positive for COVID-19 shall not return to the MPHA job site until completing a 14-day quarantine as measured from the last day of exposure to COVID-19, or as directed by a healthcare provider. If symptoms develop, the individual should continue to stay home and follow the steps outlined in the paragraph immediately above.

Hygiene

Basic infection prevention measures are being implemented at our sites.

All individuals need to **wash their hands** for at least 20 seconds with soap and water frequently throughout the day especially at the beginning and ending of their shift, prior to any mealtimes and after using the washroom. All individuals are required to wash or **sanitize their hands** prior to or immediately upon entering the facility. If gloves are worn, hands must be washed or sanitized after gloves are removed. If soap and water are not available, they need to use hand sanitizer that contains at least 60 to 95% alcohol.

All individuals are being instructed to cover their mouth and nose with their sleeve or a tissue when coughing or sneezing, and to avoid touching their face, particularly their mouth, nose and eyes, with their hands. Individuals are expected to dispose of tissues in provided trash receptacles and wash or sanitize their hands immediately afterward.

Inform individuals not to share phones, tools, utensils etc. If an item must be shared, the individual needs to use a disinfectant wipe to clean the item prior to sharing.

PPE

The proper personal protective equipment including goggles, face shields, disposable gloves, N95/K95 masks or face coverings must be worn that is appropriate for the situation and task at hand while complying with industry, local, state and federal guidance. Please do not share PPE equipment. Any person that must enter an occupied unit is required to wear a N95/K95 and face shield or goggles and gloves. Anyone in a public area of a MPHA facility must wear a face covering/mask.

Ensure used PPE is disposed of properly.

Physical Distancing – People must be at least six-feet apart when feasible

We understand that physical distancing is not always feasible especially during construction. When it is feasible, individuals need to maintain a distance of 6 feet or more from co-workers, MPHA’s residents MPHA’s employees, guests and visitors. This includes at lunch, breaks, entering and leaving the worksite, the use of elevators and stairs. Current guidance suggests that not only distancing but also the amount of time in close quarters has an impact on safety.

Cleaning/Disinfecting Protocol

Regular practices of cleaning and disinfecting is important part of the plan. Your employees will need to take the time to disinfect high touch areas. If your employee is in an occupied unit, they must disinfect the surfaces they may touch prior to conducting their work and again after the work is completed. It is imperative that they clean and disinfect anything that they may have touched prior to leaving the unit. Dispose of hand towels, tissue, wipes, etc. in appropriate receptacles.

Minnesota COVID 19 Preparedness Plan

If requested, you must present the COVID-19 Preparedness Plan for your organization required by the State of Minnesota.

MPHA appreciates your extra attention during this mutually difficult period. As always, we value your partnership as we work together to improve the lives of those we serve.

Acknowledgement: By my signature, I acknowledge that I have read, understand and agree with the requirements stated in this document. I understand that the organization that I am representing will be held accountable for educating the employees of the requirements and expectations. I certify that the organization has prepared the COVID-19 Preparedness Plan required by the State of Minnesota.
