

**HOUSING AUTHORITY OF COOK COUNTY
SOLICITATION NO. 2024-100-006
UPGRADE SECURITY CAMERA SYSTEM AT WALCHIRK APARTMENTS**

**ADDENDUM NO. 2
ISSUED ON: APRIL 10, 2024**

This Addendum forms a part of the Contract Documents and modifies the original Proposal Documents as noted below. Acknowledge receipt of this Addendum No.2 by signing the last page of this Addendum and including two (2) original signed copies in your Proposal Submittal Package. Failure to do so may subject Respondent to disqualification.

All Respondents are required to check with the Housing Authority of Cook County (HACC) website for Addenda through **April 21, 2024 at 2:00 pm**, and include two (2) signed copies of the last page of each Addendum with their bid, to acknowledge receipt of all Addenda. **Bids are due April 25, 2024 on or before 2:00 pm.**

Clarifications:

1. I was wondering if Geovision was the only brand you are willing to consider and if you would be willing to consider a different solution?
Q 1 We are looking to stay with GeoVision in order to have a homogenous system.
2. Camera specified GV-TDR4703 is discontinued, please provide updated model
3. Geovision NVR server requested is missing part number, please provide
4. 45" LED monitor requested is missing specifications and part number, please provide
5. Elevator cameras would require POE over Coax units and need a corner mount style, please provide part numbers desired
6. (4) 360 Fisheye Wireless GeoVision Camera specified is missing part number, please provide
7. Total count of the cameras will exceed the current network switch port count as well as POE budget. What model of network switch will be required for this work?
8. Can an alternative manufacturer (NDAA compliant and meeting the specifications listed) be sourced instead of Geovision?
Q 2-8 Bidder should be putting together a solution. If a device is outdated, HACC would like the replacement model.
9. POE network switch and DVR should be using UPS battery backup and installed in an enclosure, would this be approved and if so, please provide part numbers.
10. (16) analog cameras are currently connected to a Hikvision DVR unit. Will any of these (including elevators) be needed to integrate with the new system?
Q 8-9 The system would need to be compatible with the GV-Edge Recording manager software, otherwise, it needs to be GeoVision.
